## DESCRIPTION

The LTP-1 x 57A series are 1.2 inch (30.48mm) matrix height 5 x 7 dot matrix displays.

The LTP-1257AA/1357AA are multicolor applicable displays. The multicolor displays have gray face and white dot color.

The LTP-1457A/1557A series are single color displays. The green, yellow and orange displays have gray face and white dot color. The high efficiency red displays have red face and red dot color.

The green series devices utilize LED chips which are made from GaP on a transparent GaP substrate.

The yellow, orange and high efficiency red series devices utilize LED chips which are made from GaAsP on a transparent GaP substrate.
